Welcome 2022!

Happy New Year from the Coastal Centre!

We are wishing you and your families good health and happiness in 2022.
Here's to a new year and new beginnings. This is what's new with us:

New Year, New Look, New Name

**LAKE HURON
COASTAL CENTRE**

We are excited to announce that we are starting off 2022 with a new name and a new look! Our name going forward will be the **Lake Huron Coastal Centre, and we have a new logo to go with it.** Patrick Donnelly, who co-founded the Centre with Geoff Peach told us that our original logo was “professionally” designed on the back of a napkin at a Guelph Tim Hortons in 1998. After

washing out the coffee stains and the apple fritter crumbs, the finished product was a meaningful logo that represented the core focus of the Centre's goals and values. After over two decades it was time for an update, but we'd like to think that Geoff would be proud of how far the Lake Huron Coastal Centre has come over the past 23 years. We can just imagine how much he would have enjoyed getting out on the beach with our new Coastal Conservation Youth Corps participants, and cracking jokes while teaching them all about coastal science.

4 Colours, 4 Coastal Characteristics, 4 Focus Areas

Climate Change
Water Quality
Coastal Processes
Biodiversity

Yellow Sun - Signifying the important role the sun's energy has, especially regarding climate change.

Blue Water - Representing the importance of water quality.

Brown Shoreline-Suggesting coastal processes like erosion and sand dunes.

Green Vegetation - Referring to the biodiversity of life along the shoreline.

2021 Annual Newsletter

If you haven't had a chance to read our annual newsletter, check it out to find out more about what our Youth Corps, citizen scientists, and beach restoration volunteers have accomplished this year. It has been so inspiring and heartwarming to see these programs flourish and grow, and your contributions made this happen! Because of the tremendous support from people like you, our charity will emerge from the pandemic stronger, better equipped, and with increased capacity to reach our mission of providing people and communities with the knowledge, tools, and inspiration to protect our coastal environment

Applications OPEN for the Geoff Peach Memorial Scholarship

Two grants per year of up to \$1,500 are available to students interested in conducting research along the Lake Huron coast.

The Geoff Peach Memorial Scholarship Fund was created to continue Geoff's work and that of the Coastal Centre. It is available to university graduate students (Masters and PhD) with conservation and environmental research interests. Applications for Great Lakes research will be considered, however preference is given to Lake Huron research

projects. Applicable research topics include: Biodiversity, Coastal Processes, Dune Conservation, Water Quality, or Plastic Pollution. To learn more about this great scholarship opportunity click the link below.

The deadline to apply for 2022 is January 30.
